Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 15, 18, 21, 23, and 24, respectively, contains a step of performing (applying) layer 2 functionality (protocol) or coding "based on whether the multimedia stream comprises one or more of audio, video, and data" which was not described in the specification at the time the application was filed, and therefore, the step is a new matter.

Response to Arguments

3. Applicant's arguments filed 05/12/2004 have been fully considered but they are not persuasive.

Applicant argues that the specification (page 7, lines 9-23, page 8, line 11-page 9, line 4 and page 10, line 16-page 11, line 21) supports a step of performing (applying)

Art Unit: 2663

layer 2 functionality (protocol) or coding "based on whether the multimedia stream comprises one or more of audio, video, and data." Examiner disagrees.

With reference to the specification page 5, lines 29-31, "multimedia information refers to information that includes at least two of different types of information, such as voice, video, or data", thus, it is inherent that the plurality of streams which together form a multimedia sessions, each individual stream comprises one or more of audio, video, and data. Therefore, Examiner interprets the claimed subject matter as that the performing the layer 2 functionality for the multimedia information having one of audio, video, and data is different from performing the layer 2 functionality for the multimedia information having more of audio, video, and data, which is not supported by the specification.

For the reasons as discussed above, Examiner believes that the claim rejection is proper.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
